Index of Subjects

Arginine, lipase production, repression, *Pseudomonas fluorescens*, 69

Bacteria, cleaning-in-place, effect of disinfectants, 33
Bovine major histocompatibility complex and milk production, 437
Brevibacterium linens, aminopeptidase, accelerated ripening, Cheddar cheese, 571
cysteine, methionine, co-encapsulated Cheddar cheese, flavour, 579
Buffalo, milk, UHT, changes, storage, 187

Ca-saponified palm oil, fed, milk, quality, fatty acid composition, 23
Cabrales cheese, *Lactococcus lactis* subsp. *lactis*, isolated from, 125
Camel, milk, fermented, preparation, consumer acceptability, Kenya, 281
Casein(s), colloidal calcium phosphate, linkage, cleavage, milk, heated high temperature, 349
ion-exchange fast protein liquid chromatography, 63
micelles, acidic coagulation, 365
Caseinates, nitrogen solubility, 207
Cheddar cheese, flavour, H_2S, methanethiol, microcapsules containing *Brevibacterium linens*, 579
Cheddar cheesemaking, ripening, aminopeptidase of *Brevibacterium linens*, neutral proteinase, 571
milk concentrated ultrafiltration, heated 90 °C, 559
Cheese, plasmin activity, 413
fresh, water activity, prediction, 587
Cheesemaking, curd firmness, chymosin, pepsin A, effect of, 109
milk, concentrated, ultrafiltration, heated 90–97 °C, 549
Cheese ripening, Kopanisti cheese, 271
Chymosin *see* **Rennin**
Coagulation, milk, lactodynamographic analysis, 141
milk proteins, hydrophobicity, 101
Condensed milk, water concentration, photoacoustic measurement, 393
Cream, feathering, filter coffee, 227
Curd acid casein, fines, water-holding capacity, microstructure, effect of coagulation, washing conditions, 527

Diet, grass silage, intake, milk production, intraruminal infusions, urea, 455
soyabeans, rapeseeds, milk fat composition, 295
Disinfection, milking lines, 33

Emulsification sodium caseinate, whey protein isolate, 377
Enzyme-linked immunosorbent assay, detection, cows' milk in ewes' milk, 197
Ethiopia, milk, microflora, contamination sources, processing plant, 233
Ewes, milk, glycoproteins, heat-, acid-stable fraction, 507

Feeding systems, effect on lactation cycle, 151
Flavour, Cheddar cheese, interactive effect, H_2S, methanethiol, 579

Galactose, peripheral blood, piglets, 331
Gastrointestinal infection, immunobiological prevention, 255
Glucose, peripheral blood, piglets, 331
Goat(s), Alpine, milk composition, Greece, 41
milk, yogurt, acetaldehyde formation, effect of threonine, glycine, 401
Greece, goats' milk, composition, 41

Heat exchange apparatus model, fouling deposit, 339
Heat stability, recombined concentrated milk, 213
Heat treatment, milk, calcium, phosphate, equilibria, ^{43}Ca, $^{31}PNMR$, study, 355
colloidal calcium phosphate, casein, linkage, cleavage, 349

Insulin, sensitivity, food intake, effect of lactation, 465

Kenya, fermented camel milk, preparation, consumer acceptability, 281
Kopanisti cheese, ripening changes, 271

Lactation, input–output modelling, 151
insulin sensitivity, effect of food intake, 465
Lactobacillus acidophilus, gastrointestinal infection, prevention, 255
L. casei, gastrointestinal infection, prevention, 255
L. delbrueckii subsp. ***bulgaricus***, proteinase, peptidase, esterase activities, Greek yogurt, 593
Lactococcus lactis subsp. ***cremoris***, prolidase activity, 245
L. lactis subsp. ***lactis***, from Cabrales cheese, 125
Lactodynamographic analysis, milk clotting aptitude, 141
Lipase, production, *Pseudomonas fluorescens*, repressed, arginine, 69
Lymphocytes, proliferation, mammary macrophages, 7

Machine milking, teat, thickness, effect on, 495
Mammary gland, dehydration, arginine vasopressin, infusions, effect of, 479
fatty acids synthesis, effect of dietary unsaturated fatty acids, 179
triglycerides, 1
macrophages, lymphocytes, 7
milking frequency, effect of, 285, 441
plasma triglycerides, extraction, blood, lactogenesis, 489
Mastitis, subclinical, diagnosis, use of interquarter ratios, 325
milk yield, loss, 319

Milk, bulk, bacterial numbers, 307
cows', detection in ewes', enzyme-linked immunosorbent assay, 197
Ethiopia, microflora, contamination, 233
quality, Ca-saponified palm oil, fed, 23
Milk composition, ewes', glycoproteins, heat-, acid-stable fraction, 507
fatty acids, Ca-saponified palm oil, fed, 23
Milk fat, feeding, soyabeans, rapeseeds, 295
Milk production, bovine major histocompatibility complex, effect of, 437
dehydration, arginine vasopressin, effect of infusions, goat, 479
grass silage diet plus intraruminal infusions, urea, 455
Milk proteins breakdown, *see* **Proteolysis**
hydrophobicity, during coagulation, curd hardening, 101
polymorphism, genetic, Danish dairy cattle, 53
whey protein isolate, emulsifying properties, 377
Milk yield, milking frequency, effect of, 285, 441
milk protein, effect of polymorphism, 53
subclinical mastitis, effect of, 319
Milking frequency, milk yield, effect on, 285, 441
Milking machines, teat penetration, teat cups, 165, 171
Montbeliard, cows' milk, plasmin, plasminogen, concentrations, 423

Oestrone sulphate, concentration, mammary secretions, goats, 419

Parturition, prediction, oestrone sulphate concentrations, 419
Pepsin A, cheese curd firmness, effect on, 109
Peptidases, proline-specific, *Streptococcus cremoris*, 79
Peptides, cheese, partial fractionation, 135
Piglets, blood glucose, galactose, 331
Plasmin, plasminogen, concentrations, milk, 423
Post-proline dipeptidyl aminopeptidase, purification, 89
Proteolysis, cheese, determination, titration, 149
milk, measurement, trinitrobenzene sulphonic acid and new dissolving reagent, 143
skim milk, heat-, chemical treatments, 541
Pseudomonas fluorescens, lipase secretion, repressed, arginine, 69

Rennin, cheese curd firmness, effect on, 109

Skim milk, proteolysis, heat-, chemical treatments, 541
Streptococcus cremoris, peptidases, proline-specific, 79
post-proline dipeptidyl aminopeptidase, purification, 89
S. salivarius subsp. ***thermophilis***, proteinase, peptidase, esterase activities, Greek yogurt, 593
Table spreads, firmness values, effect of composition, temperature, 265
Teat, thickness, machine-induced change, 495
length, penetration, teatcup, milking, 165, 171
washing, drying, bacterial numbers, bulk milk, 307
Titration, proteolysis, cheese, determination, 149

Udder, compensatory milk production, 17
health, effect of teat characteristics, 171

UHT milk, sterility tests, 239

Yogurt, from goats' milk, acetaldehyde formation, effect of threonine, glycine, 401
Greek, proteinase, peptidase, esterase activities, from wild, *Lactobacillus* sp., *Streptococcus* sp., 593

Contents

No. 1 (February 1990)

PAGE

The onset of mammary secretion of medium-chain-length triglyceride fatty acids in the cow milk pre-partum. G. THOMPSON and A. FAULKNER . 1

Ability of bovine mammary macrophages to enhance proliferation of autologous blood and mammary secretion lymphocytes. C. CONCHA and O. HOLMBERG 7

Compensatory milk production within the bovine udder: effects of short-term non-milking of single quarters. J. HAMANN and J. REICHMUTH . . 17

Fatty acid composition and milk quality related to feeding Ca-saponified palm acid oil to different breeds of dairy cows. J. E. HERMANSEN and P. LUND 23

Effect of cleaning-in-place disinfectants on wild bacterial strains isolated from a milking line. T. MATTILA, M. MANNINEN and A.-L. KYLÄSIUROLA . 33

Composition of Alpine goats' milk during lactation in Greece. L. VOUTSINAS, C. PAPPAS and M. KATSIARI 41

Milk protein polymorphism in Danish dairy cattle and the influence of genetic variants on milk yield. A.-M. BECH and K. R. KRISTIANSEN . . . 53

Ion-exchange fast protein liquid chromatography: optimization of the purification of caseins using a non-denaturing detergent. M. ST-MARTIN and P. PAQUIN 63

Repression of *Pseudomonas fluorescens* extracellular lipase secretion by arginine. L. FERNÁNDEZ, C. SAN JOSÉ and R. C. MCKELLAR . . . 69

Proline specific peptidases of *Streptococcus cremoris* AMS. M. BOOTH, W. J. DONNELLY, I. NI FHAOLÁIN, P. V. JENNINGS and G. O'CUINN . . 79

Purification and characterisation of a post proline dipeptidyl aminopeptidase from *Streptococcus cremoris* AM2. M. BOOTH, I. NI FHAOLÁIN, V. JENNINGS and G. O'CUINN 89

A study of surface hydrophobicity of milk proteins during enzymic coagulation and curd hardening. C. PERI, A. PAGLIARINI, S. IAMETTI and F. BONOMI 101

Effects of chromatographically pure bovine chymosin and pepsin A on cheese curd firmness. A. ANDRÉN and C. VON REEDTZ 109

Influence of chromatographically pure bovine chymosin and pepsin A on cheese curd synthesis. H. ANDERSSON and A. ANDRÉN 119

Characterization of wild strains of *Lactococcus lactis* subsp. *lactis* isolated from Cabrales cheese. B. MAYO, C. HARDISSON and A. F. BRAÑA . . . 125

Short communications

A scheme for the partial fractionation of cheese peptides. M. O'Sullivan and P. F. Fox 135

Repeatability of milk clotting aptitude evaluated by lactodynamographic analysis. A. Caroli, P. Bolla, G. Pagnacco, M. Rampillo and L. Degano 141

Measurement of proteolysis in milk and cheese using trinitrobenzene sulphonic acid and a new dissolving agent. G. Humbert, M.-F. Guingamp, R. Kouomegne and G. Linden 143

Titration – a rapid method for the determination of proteolysis in cheese. P. Ollikainen 149

No. 2 (May 1990)

Rationale of feeding systems for lactating dairy cows. C. L. Johnson and C. L. Tran 151

Teat length and penetration into teatcup during milking in Norwegian Red Cattle. O. Rønningen and A. D. Reitan 165

Influence of static and dynamic teat characteristics and milking time on udder health in Norwegian Red Cattle. O. Rønningen and A. D. Reitan . 171

Effect of dietary unsaturated fatty acids in various forms on the *de novo* synthesis of fatty acids in the bovine mammary gland. W. Banks, J. L. Clapperton and A. K. Girdler 179

Changes in the physical properties of ultra high temperature processed buffalo milk during storage. D. K. Sharma and D. N. Prasad 187

Detection of cows' milk in ewes' milk and cheese by an indirect enzyme-linked immunosorbent assay (ELISA). E. Rodríguez, R. Martín, T. García, P. E. Hernández and B. Sanz 197

An improved method for determining the nitrogen solubility of caseinates. W. Kneifel and A. Beurel 207

Effects of added salts on the heat stability of recombined concentrated milk. M.-A. Augustin and P. T. Clarke 213

Ultraviolet spectroscopic studies and the prediction of the feathering of cream in filter coffees. L. Hamboyan and D. Pink 227

A survey of the microflora of raw and pasteurized milk and the sources of contamination in a milk processing plant in Addis Ababa, Ethiopia. T. Mahari and B. A. Gashe 233

Comparison of rapid tests for assessing UHT milk sterility. J. A. Reinheimer and M. R. Denkow 239

Prolidase activity of *Lactococcus lactis* subsp. *cremoris* AM2: partial purification and characterization. M. Booth, V. Jennings, I. Ní Fhaolain and G. O'Cuinn 245

Prevention of gastrointestinal infection using immunobiological methods with milk fermented with *Lactobacillus casei* and *Lactobacillus acidophilus*. G. PERDIGON, M. E. NADE DE MACIAS, S. ALVAREZ, G. OLIVER and A. A. P. DE R. HOLGADO 255

Firmness values of three-phase, milk fat-based table spreads as determined by composition and temperature. J. FOLEY, M. A. MORAN and C. M. COONEY 265

Ripening changes in Kopanisti cheese. S. E. KAMINARIDES, E. M. ANIFANTAKIS and E. ALICHANIDIS 271

Short communication

Preparation and consumer acceptability tests of fermented camel milk in Kenya. Z. FARAH, T. STREIFF and M. R. BACHMANN 281

No. 3 (August 1990)

Milk yield and mammary function in dairy cows milked four times daily. J. E. HILLERTON, C. H. KNIGHT, A. TURVEY, S. D. WHEATLEY and C. J. WILDE 285

Effect on cow performance and milk fat composition of including full fat soyabeans and rapeseeds in the concentrate mixture for lactating dairy cows. J. J. MURPHY, G. P. MCNEILL, J. F. CONNOLLY and P. A. GLEESON 295

The effect of udder preparation before milking and contamination from the milking plant on bacterial numbers in bulk milk of eight dairy herds. C. H. MCKINNON, G. J. ROWLANDS and A. J. BRAMLEY 307

A method for assessing loss in milk yield due to subclinical mastitis. M. OSHIMA, T. YOSHIDA, K. KOYAMA and T. MORIYAMA 319

The diagnosis of subclinical mastitis by redefinition of the interquarter ratio and definition of the interquarter ratio using analysis of variance methods. K. KNUDSEN and N. E. JENSEN 325

Changes in the concentration of glucose and galactose in the peripheral blood of sucking piglets. M. A. HOLMES, P. G. ARTHUR and P. E. HARTMANN . 331

A model heat exchange apparatus for the investigation of fouling of stainless steel surfaces by milk II. Depth of fouling material at 140 °C, its adhesion and depth profiling. C. L. FOSTER and M. L. GREEN 339

Cleavage of the linkage between colloidal calcium phosphate and casein on heating milk at high temperature. T. AOKI, T. UMEDA and Y. KAKO . 349

A ^{43}Ca and ^{31}P NMR study of the calcium and phosphate equilibria in heated milk solutions. N. M. WAHLGREN, P. DEJMEK and T. DRAKENBERG . 355

Acid coagulation of casein miscelles: mechanisms inferred from spectrophotometric studies. N. A. BRINGE and J. E. KINSELLA 365

Comparative emulsifying properties of sodium caseinate and whey protein isolate in 18% oil in aqueous solutions. J. FOLEY and C. O'CONNELL . 377

Relationship between amplitude and phase measurements of photoacoustic signal in the infrared region and water concentration in condensed milk. R. Martel, P. Paquin and L. Bertrand 393

Effect of threonine and glycine on acetaldehyde formation in goats' milk yogurt. G. Rysstad, W. J. Knutsen and R. K. Abrahamsen . . 401

Observations on plasmin activity in cheese. N. Y. Farkye and P. F. Fox . 413

Short communication

Comparison of oestrone sulphate concentrations in mammary secretions during lactogenesis and lactation in dairy ruminants. M. Hamon, I. R. Fleet and R. B. Heap 419

No. 4 (November 1990)

Variation with season and lactation of plasmin and plasminogen concentrations in Montbeliard cows' milk. S. Benslimane, M. J. Dognin-Bergeret, J.-L. Berdague and Y. Gaudemer 423

Associations between the bovine major histocompatibility complex (BoLA) and milk production in Icelandic dairy cattle. S. P. Simpson, O. Oddgeirsson, J. V. Jonmundsson and R. A. Oliver 437

Milk yield and mammary function in goats during and after once-daily milking. C. J. Wilde and C. H. Knight 441

Yield and composition of milk from lactating mares: effect of lactation stage and individual differences. M. Doreau, S. Boulot, J.-P. Barlet and P. Patureau-Mirand 449

The effects of intraruminal infusions of urea on the voluntary intake and milk production of cows receiving grass silage diets. J.-J. Choung, D. G. Chamberlain, P. C. Thomas and I. Bradbury 455

Effect of plane of nutrition on insulin sensitivity during lactation in the ewe. J. A. Metcalf and T. E. C. Weekes 465

Effects of dehydration and arginine vasopressin infusions on the production of milk and the morphology of the goat udder. K. Dahlborn, J. H. Hilali and H. Rodriguez-Martinez. 479

Local control of the onset of mammary extraction of plasma triglycerides during lactogenesis in the goat. G. E. Thompson 489

Measurement of machine-induced changes in thickness of the bovine teat. J. Hamann and G. A. Mein 495

Glycoproteins in the heat- and acid-stable fraction of ovine milk. E. Alichanidis and A.-M. Michaelidou 507

HPLC and GLC analysis of the triglyceride composition of bovine, ovine and caprine milk fat. L. J. R. Barron, M. T. G. Hierro and G. Santa-María 517

Effect of coagulation and washing conditions on fines, water-holding capacity and microstructure of acid casein curd. J. FICHTALI, F. R. VAN DE VOORT and C. J. TOUPIN 527

Enhancement of proteolysis in bovine skim milk by heat and chemical treatments. Y. IGARASHI 541

The cheesemaking potential of milk concentrated up to four-fold by ultrafiltration and heated in the range 90–97 °C. M. L. GREEN . . 549

Cheddar cheesemaking from whole milk concentrated by ultrafiltration and heated to 90 °C. M. L. GREEN 559

Accelerated ripening of Cheddar cheese with the aminopeptidase of *Brevibacterium linens* and a commercial neutral proteinase. K. HAYASHI, D. F. REVELL and B. A. LAW 571

Interactive effect of H_2S production from cysteine and methanethiol production from methionine in milk fat-coated microcapsules containing *Brevibacterium linens*. S. C. KIM, M. KIM and N. F. OLSON . . . 579

New equation for prediction of water activity in unripe cheese. P. LÓPEZ, A. MARCOS and M. A. ESTEBAN 587

Proteinase, peptidase and esterase activities of cell-free extracts from wild strains of *Lactobacillus delbrueckii* subsp. *bulgaricus* and *Streptococcus salivarius* subsp. *thermophilis* isolated from traditional Greek yogurt. G. KALANTZOPOULOS, E. TSAKALIDOU and E. MANOLOPOULOU . . . 593
